1. CORPORATE INFORMATION AND NATURE OF CONTINUANCE OF OPERATIONS

AsiaBaseMetals Inc. (the "Company") was incorporated on August 11, 2009 under the laws of British Columbia. The Company's principal business activities include the acquisition, exploration and development of resource property. The address of the Company's corporate office and principal place of business is 6153 Glendalough Pl., Vancouver, British Columbia, V6N 1S5, Canada.

At June 30, 2016, the Company had not yet determined whether its property contains ore reserves that are economically recoverable. The recoverability of amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain necessary financing to complete the development, and upon future profitable production or proceeds from the disposition of the resource property. The outcome of these matters cannot be predicted at this time and the uncertainties cast significant doubt upon the Company's ability to continue as a going concern.

These interim condensed financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these financial statements.

2. SIGNIFICANT ACCOUNTING POLICIES

a) Statement of compliance

These interim condensed financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), including IAS 34 – *Interim Financial Reporting.* For these purposes, IFRS comprise the standards issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC").

The accounting policies applied in these interim condensed financial statements are consistent with those applied in the preparation of, and disclosed in, the Company's audited annual financial statements for the year ended September 30, 2015, except as discussed in Note 2(d).

b) Basis of presentation

The condensed interim financial statements have been prepared on the historical cost basis, with the exception of financial instruments which are measured at fair value. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

On April 16, 2015, the Company's Board approved a consolidation of the Company's issued and outstanding share capital on a 2 old for 1 new basis. The stock consolidation was completed on May 13, 2015. On August 14, 2015 the Board approved a further consolidation of the Company's issued and outstanding share capital on a 2 old for 1 new basis. The stock consolidation was completed on August 31, 2015. Subsequently, on February 17, 2016 the Board approved a further consolidation of the issued and outstanding shares on a 2 old for 1 new basis. The stock consolidation was completed on March 4, 2016. All share capital and per share amounts in these financial statements have been adjusted to give retroactive effect to the share consolidation.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

c) Going Concern

These interim financial statements are prepared on a going concern basis, which assumes that the Company will continue its operations for a reasonable period of time. The Company has incurred losses since its inception, has a working capital deficiency of $70,814 and had an accumulated deficit of $2,416,969 at June 30, 2016. Management has determined that the Company will be able to continue as a going concern for a reasonable period of time, and realize its assets and discharge its liabilities and commitments in the normal course of business.

d) Changes in accounting standards

(i) New or amended accounting standards

On October 1, 2015, the Company adopted the following new accounting standards that were previously issued by the IASB:

IAS 1 – *Presentation of Financial Statements*

In December 2014, amendments to IAS 1 were issued to address perceived impediments to preparers exercising their judgement in presenting their financial statements. The amendments clarify the definition of materiality, the presentation of items on the statement of financial position and statement of profit or loss and other comprehensive income, and ordering of notes in the financial statements.

IAS 16 – *Property, Plant and Equipment and* IAS 38 – *Intangible Assets*

In May 2014, the IASB issued amendments to IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets. The amendments clarify that the use of revenue-based methods to calculate the depreciation of an asset is not appropriate because revenue generated by an activity that includes the use of an asset generally reflects factors other than the consumption of the economic benefits embodied in the asset. The amendments also clarify that revenue is generally presumed to be an inappropriate basis for measuring the consumption of the economic benefits embodied in an intangible asset. The presumption, however, can be rebutted in certain limited circumstances.

(ii) Accounting standards issued but not yet effective

Standards issued, but not yet effective, up to the date of issuance of the Company's financial statements are listed below. This listing of standards and interpretations issued are those that the Company reasonably expects to have an impact on disclosures, financial position or performance when applied at a future date. The Company intends to adopt these standards when they become effective.

New accounting standards effective for annual periods on or after October 1, 2018:

IFRS 15 – Revenue from Contracts with Customers

In May 2014, IFRS 15 was issued and replaces IAS 11 – *Construction Contracts*, IAS 18 – *Revenue*, IFRIC 13 – *Customer Loyalty Programmes*, IFRIC 15 – *Agreements for the Construction of Real Estate*, IFRIC 18 – *Transfers of Assets from Customers* and SIC-31 – *Revenue – Barter Transactions Involving Advertising Services.* IFRS 15 establishes a single five –step model framework for determining the nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with a customer.

(Unaudited - Expressed in Canadian Dollars)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

d) Changes in accounting standards (continued)

IFRS 9 – *Financial Instruments*

In November 2009, as part of the IASB project to replace IAS 39 Financial Instruments: Recognition and Measurement, the IASB issued the first phase of IFRS 9 Financial Instruments, that introduces new requirements for the classification and measurement of financial assets. The standard was revised in October 2010 to include requirements regarding classification and measurement of financial liabilities. In November 2013, new general hedging requirements were added to the standard. In July 2014, the final version of IFRS 9 was issued and adds a new expected loss impairment model and amends the classification and measurement model for financial assets by adding a new fair value through other comprehensive income category for certain debt instruments and additional guidance on how to apply the business model and contractual cash flow characteristics.

New accounting standards effective for annual periods on or after October 1, 2019:

IFRS 16 – *Leases*

Effective for annual periods beginning on or after January 1, 2019. Early adoption will be permitted, provided the Company has adopted IFRS 15. This standard sets out a new model for lease accounting.

The extent of the impact of adoption of these standards and interpretations on the financial statements of the Company has not been determined.

9. FINANCIAL INSTRUMENTS AND FINANCIAL RISK

Financial Instruments and Fair Value Measurements

IFRS 13 – *Fair Value Measurement*, establishes a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

9. FINANCIAL INSTRUMENTS AND FINANCIAL RISK (continued)

Financial Instruments and Fair Value Measurements (continued)

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Assets measured at fair value on a recurring basis were presented on the Company's balance sheet as of June 30, 2016 as follows:

	Fair Value Measurements Using			
	Quoted Prices in Active Markets For Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Cash	$ 1,828	$ –	$ –	1,828

Financial Risk

(i) Credit Risk

Credit risk arises from the non-performance by counterparties of contractual financial obligations. The Company's maximum credit risk is primarily attributable to its cash. The Company limits its exposure to credit loss for cash by placing such instruments with high credit quality financial institutions.

As at June 30, 2016, the Company's maximum exposure to credit risk is the carrying value of cash of $1,828.

(ii) Liquidity Risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient financial resources to meet liabilities when due. As at June 30, 2016, the Company had negative working capital of $70,814. All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms.

As at June 30, 2016 the Company has negative working capital to discharge its existing financial obligations. Management intends to raise capital through the issuance of new shares, however, as at July 26, 2016 this has not been completed.

(iii) Interest Rate Risk

In management's opinion, the Company's interest rate risk is minimal as the Company does not have any bank indebtedness or loans payable that bear interest at fixed or variable rates.

(iv) Foreign Currency Risk

The Company is exposed to currency fluctuations in the acquisition of foreign currencies. The Company holds balance in cash in foreign currencies (US dollars) and is therefore exposed to gains or losses on foreign exchange. A significant change in the currency exchange rate between the Canadian dollar relative to the US dollar could have an effect on the Company's results of operations, financial position and/or cash flows. The Company has not hedged its exposure to currency fluctuations.
