1. Executive Summary

AsiaBaseMetals Inc. is a Vancouver based resource company focused globally on exploration and development of zinc and base metals. The Company has a project in British Columbia, Canada – the Gnome zinc project.

The Company is primarily focused on advancing the Gnome property, and identifying, acquiring and developing copper and other base and precious-metal properties in Asia, and North and South America.

The Gnome zinc project has land claims that encompass 5,429 hectares and are located strategically in the heart of an area home to some of Canada's important zinc deposits and the focus of much past exploration. These deposits and prospects were discovered in the heyday of northern British Columbia Zn-Pb-Ag exploration during the late 1970's and early 1980's.
