Management Discussion and Analysis

For the three months ended on December 31, 2013

1. Executive Summary

AsiaBaseMetals Inc. is a Vancouver based resource company focused globally on exploration and development of zinc and base metals. The Company has a project in British Columbia, Canada – the Gnome zinc project.

The Company is primarily focused on advancing the Gnome property, and identifying, acquiring and developing copper and other base and precious-metal properties in Asia, and North and South America.

The Gnome zinc project has land claims that encompass 5,429 hectares and are located strategically in the heart of an area home to some of Canada's important zinc deposits and the focus of much past exploration. The Gnome project lies 70 km SE from the Cirque Zn-Pb-Ag deposit and 46 km SE along trend from the Akie Zn-Pb-Ag deposit, all of which are in the Kechika trough, a geological belt northeast of Williston Lake containing these and other sediment-hosted Zn-Pb-Ag prospects along trend. These deposits and prospects were discovered in the heyday of northern British Columbia Zn-Pb-Ag exploration during the late 1970's and early 1980's.

Work on the Gnome project to date includes mapping and sampling during the 1970's and recent work by the Company. The Company conducted an exploration program during fiscal 2012 and completed the program early fiscal 2013. The Company prepared an updated geological report and is evaluating and assessing the data obtained from the program to determine the next course of action.

2. First Quarter 2014 Highlights

For the three months ended December 31, 2013, the Company incurred a comprehensive loss of \$88,527 and had an accumulated deficit of \$1,643,516. The Company's ability to continue its operations and to realize assets at their carrying values is dependent upon obtaining additional financing and generating revenues sufficient to cover its operating costs.

The Company's cash position at December 31, 2013 was \$65,667.

3. Results of Operations

The following is a summary of the total project costs to date for the Gnome zinc project:

	Acquisition Costs	Project Costs	Total
Balance as of September 30, 2013	\$ 29,276	\$ 380,064	\$ 409,340

8. Changes in Accounting Policies

The preparation of financial statements in conformity with IFRS requires the Company to establish accounting policies and to make estimates that affect both the amount and timing of the recording of assets, liabilities, revenues and expenses.

A detailed summary of the Company's significant accounting policies is included in Note 2 of the Interim Condensed Financial Statements for the three months ended December 31, 2013.

9. Financial Instruments and Other Instruments

a) Financial Instruments

As at December 31, 2013, the Company's financial instruments include cash and cash equivalents, amounts receivable, accounts payable and amounts due to related party. The carrying value of these instruments approximates their fair values due to the relatively short periods of maturity of these instruments.

b) Financial Risks

The Company is exposed to a number of risks arising from financial instruments. The types of risk the Company is exposed to and the Company's principal risk management strategies are detailed in the Company's audited Financial Statements for the year ended September 30, 2013.

10. Business Operations

The Company was incorporated on August 11, 2009 under the laws of British Columbia. The Company's principal business activities include the acquisition, exploration and development of resource property. The address of the Company's corporate office is Suite 2560-200 Granville Street, Vancouver, British Columbia, V6C 1S4, Canada.

At December 31, 2013, the Company had not yet determined whether its property contains ore reserves that are economically recoverable. The recoverability of amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development, and upon future profitable production or proceeds from the disposition of the resource property.
